

Form Lids

NITTEL Form Lids are the ideal solution for protecting the inside of your drum lid.

NITTEL Form Lids work in conjunction with our Form Inliners™ and are designed to fit on top of the open top drum to prevent contamination from the drum lid, giving an extra layer of protection. By using our Form Lid you will achieve an effective sealed unit to protect the drum and lid, also protecting all of your product. Once the Form Lid is fitted you can attach the steel lid as usual.

Use:

Open top steel drums

Versions:

200 litre

Material:

NITTEL Form Lids are made from LDPE

Application Examples:

The cover will sit on top of the drum and will still enable the steel lid to be fitted.

- Designed to fit perfectly on top of a drum.
- Can be used in new & re-conditioned drums.
- Full protection for the steel lid.
- When used with a Form Inliner™ the drum will be fully protected from the contents.
- Suitable for transportation and in-house
